

Credit Card Dashboard Project Summary

Project Objective

Developed a comprehensive credit card dashboard to provide real-time insights into key performance metrics, enabling stakeholders to monitor revenue, transactions, and customer behavior.

Data Processing

- Prepared and cleaned CSV data.
- Created SQL tables and imported data.
- Performed data transformation and validation.

DAX Measures

- Customer segmentation by Age Group and Income Group.
- Weekly revenue calculation.
- Week-over-week comparison metrics.

Key Insights

- Revenue increased by approximately 28.8% week-over-week.
- Total revenue reached approximately 57M.
- Male customers contributed higher revenue than female customers.
- Top card categories contributed approximately 93% of transactions.
- Activation rate was 57.5%, and delinquency rate was 6.06%.

Metric	Value
Revenue growth WoW	~28.8%
Total revenue	~57M
Activation rate	57.5%
Delinquency rate	6.06%
